

FRASER YACHTS

Fraser Yachts and Eidsgaard Design create some festive cheer

Monaco, 22nd December 2011 – Last Thursday saw the official unveiling of a new window display in the Fraser Yachts Mayfair office, the event served as the perfect festive opportunity for networking with clients and industry peers.

Fraser Yachts offered their London office as a gallery to Eidsgaard Design to exhibit their yacht and aircraft design skills. Creating a theme based upon children's dreams of boating, Eidsgaard created a large stainless steel model of a traditional sailing yacht for the main window and filled the office with sketches of boats and oversized drawing instruments.

The fun event was attended by around 50 guests, including clients, partner companies and industry friends from the London area. The festive spirit was enhanced by wine and a selection of Christmas nibbles and at the end of the night guests left with a gift, courtesy of Fortnum and Mason.

The current installation will be in place until the end of March 2012 with a new display being created by another designer due to be installed in early April.
